

SK8 Footpath Sign on wheels

A brilliant new sign concept... just grab, tip and roll.

- * Designed to ease the movement of your footpath signage - no more lifting and carrying. Just grab, tip and roll!
- * Arguably the most user friendly footpath sign available.
- * Sign panels are manufactured from composite aluminium with a matt white finish and can be locked into the base.
- * The base can be weighted for additional stability and is available in a range of colours.
